

Clean Paper

Polstar Clean Paper is specially designed for writing, printing and photo-copying machine in the Cleanroom environment. Through polymerization process, fiber lint and particulates are tightly bound each other. This will decrease electro-static buildup and will eventually minimize scrap rate of copier. Polstar Clean Paper provides the variety of colors, sizes and weights.

P/N: M01-S-000

Features

- Low Talc
- Recyclable
- Double packing in cleanroom environment
- Ultra-low particle generation, extractable chemicals and metallic ion content
- High opacity and durability
- High tear and tensile strength
- Smooth feeding and superior toner adherence in laser printers and PPC copiers
- Clear writing
- Various colors, sizes and weights are available

Physical Properties

Item	Weight (gsm)	Size (mm)		Packing
<i>Clean Paper RC (Recyclable)</i>	72	A3	420 X 297	250 sheets/pk, 5 pks/ctn
	80	A4	210 X 297	250 sheets/pk, 10 pks/ctn
	100	A5	210 X 148	250 sheets/pk, 20 pks/ctn
	250	B4	257 X 364	250 sheets/pk, 5 pks/ctn
		B5	182 X 257	250 sheets/pk, 10 pks/ctn
<i>Full Sized Clean Paper</i>	72, 80, 100, 250	FULL SIZE	645 X 900	9 sheets of A4 size are available
			850 X 900	12 sheets of A4 size are available
<i>Standard Color</i>	White, S. blue, L. Blue, R. Blue, Green, Pink, Yellow, Orange			
* Other weights, colors and sizes are also available under minimum production q'ty.				

TF Clean Paper

Physical Properties

Weight (gsm)	72
Color	White, Light Blue
